

# **LONE STAR TRIPLEFAST PTE LTD**

**Petrochemical Fasteners - Construction Fasteners - Sealing Components  
Specialised Coatings - Precision Machined Components**

*A member of the **LONE STAR PRD** group of companies*

# The Company

---

**Lone Star Triplefast Private Ltd is based in Singapore to facilitate sales, stockholding, distribution and logistics for the *Lone Star PRD Group* and customers located in South East Asia.**

## About The Lone Star PRD Group

"Manufacturers, stockholders and suppliers of High Integrity, Special and Petrochemical Fasteners, Gaskets, Sealing Products and Machined Components.

In April 2007 the PRD Holdings Group of Companies merged its business interests with LS Precision Manufacturing Inc (Lone Star Fasteners) of Houston, Texas to form the Lone Star PRD Group.

The purpose of the merger was to create a new international group of companies to expand into world markets for the supply of High Integrity Bolting, Gaskets and associated products within the Oil, Gas, Petrochemical and Power Generation Industries, offering unrivalled levels of support and service to our customers and a GLOBAL FOOTPRINT.

## Other Group Companies

- PRD Fasteners Ltd, UK
- Eurofast Petrochemical Supplies Ltd, UK

# Petrochemical & Power Generation Fasteners

**"High integrity bolting for the oil, gas, power generation & heavy engineering industries."**

## Oil & Gas

Threaded bar, stud bolts, hexagon products and heavy series nuts are maintained in stock for the oil and gas sector for pipeline, valve and flange construction and associated assemblies whether for bulk project installation or maintenance repair.

## Petrochemical

A full range of petrochemical specialised grade bolting and products are held in stock including: studbolts, heavy hexagon nuts, heavy hexagon bolts, threaded bar and socket screws plus semi-finished products for speedy conversion to non-stock sizes and special requirements.

## Heavy Engineering

Standard and bespoke fasteners are carried in stock, manufactured to customer specification or sourced to service the demanding requirements of the heavy engineering sector.

## Power Generation

The group has built a reputation for the manufacture of precision bolting required for the power generation industry and has formed supply partnerships with some of the world's leading gas, steam turbine and associated plant manufacturers, including compressors, boilers and valves for high temperature as well as high pressure applications. Products include; hexagon head bolts, ferris head (12pt) and socket head cap screws, waisted and full bodied studs, hexagon, round and cap nuts, helicoil inserts and associated hardware
